NY/NJ Baykeeper is the citizen guardian of the Hudson-Raritan Estuary. Since 1989, we have worked to protect, preserve, and restore the environment of one of the most urban estuaries on Earth - benefiting its natural and human communities.

The Hudson-Raritan Estuary marks the watery end of New York and New Jersey's largest waterways - including the Hudson, Hackensack, Passaic, and Raritan rivers. The Estuary is a living web of uplands, biologically rich fresh and saltwater wetlands, beaches, straits and broad bays. It is home to more than 150 species of fish and shellfish, 330 bird species, and 15 million people.

Through our Estuary-wide programs we seek to end pollution, improve public access, conserve and restore public lands, restore aquatic habitats, encourage appropriate and discourage inappropriate development, carry out public education, and work with federal and NY/NJ state regulators and citizen groups as partners in planning for a sustainable future for the Hudson-Raritan Estuary watershed.
